Terms and Conditions for Research Use Only Products	
Version 01 Issued 12-Aug-2024 (en)	RUO – Research Use Only

General instruction:

Please read these Terms and Conditions of Use for Research Use Only Products (hereinafter “Terms and Conditions”) carefully before storing, handling or using this research use only product (“the Product”). This Product is delivered at your specific request and with the specific purpose to use the Product for Research Use Only (RUO). As indicated in the order confirmation of Essange Reagents (hereinafter: “Order Confirmation”), Essange Reagents does not accept any other terms and conditions than these Terms and Conditions for this Product. Essange Reagents explicitly rejects any other terms or terms and conditions than these Terms and Conditions.

In view of the specific nature of this Product you may only accept, handle, store or use this Product after reading these Terms and Conditions thoroughly and following internal procedures for instructions and use and upon acceptance of these Terms and Conditions and any accompanying or future instructions of Essange Reagents. If you do not wish to accept or cannot totally apply these Terms and Conditions or instructions, in view of internal policies or conflicting regulations, policies or guidelines wherever applicable, please cancel the order or return the Product immediately.

These Terms and Conditions and any other instruction, warning or notice of Essange Reagents should be kept with the Product at all times. You may keep copies for your administration. Essange Reagents may amend these Terms and Conditions at its sole discretion. We advise you to verify any new releases at our website (<https://www.essange-reagents.com/about-us/terms-and-conditions/>).

Product use and strict limitations of use:

This Product is for laboratory research use only (RUO) and can only be used or handled by professionals with sufficient knowledge of laboratory practices, quality and research. The Product cannot and may not be administered to humans or animals. The Product may not be used for therapeutic, in-vitro diagnostic or commercial purposes, unless with explicit written permission of Essange Reagents. The Product is not suitable for Investigational Use (IUO), study, training or educational purposes.

The Product may not be stored, kept or handled without warnings, labels, identification numbers or information such as these Terms and Conditions. The Product can only be applied in accordance with written internal procedures covering at least the conditions of use, handling and storage as set out in these Terms and Conditions. The Product may not be sold, transferred, distributed or made available in whatever manner to third parties (affiliates included). The Product may not be mentioned nor referred to in any form of public communication without the prior approval of Essange Reagents in writing; RUO products may be mentioned in scientific publications without prior approval.

Handling and storage:

We advise you strongly to keep the Product separated from any medicinal, IVD or any similar product at all times and give proper instructions to all persons who have access to the Product for whatever reason (cleaning, storage, handling, etc).

Intellectual Property Rights:

Purchaser cannot claim any intellectual property right (e.g patents, know how, exploitability, trademark, discoveries, processes) whether combined or not. Essange Reagents only grants a onetime non-transferrable and non-exclusive license to purchaser to use the Product for non-commercial research only for the term of one year or expiry date of the product (whichever is last) under the terms and conditions of these Terms and Conditions, unless agreed otherwise in writing for terms to be negotiated. Research use is considered non-commercial only if the product is not used, directly or indirectly, for the identification, development, production, or monitoring the effect of a therapeutic or diagnostic product, or service, or for production of any product for sale. A for-profit organisation requires a license from Essange Reagents in order to use a product covered by a claim of these patents to identify, develop, make or monitor the effect of a therapeutic, diagnostic or other commercial product. A not-for-profit organisation requires a license if the product, research or the result of screening or research is transferred to, or obtained for, or on behalf of a for-profit organisation.

Disclaimer Intellectual Property Rights:

Unless explicitly stated in writing, no license or immunity under any patent is either granted or implied by the sale of the Product. Essange Reagents does not give any warranty (whether express or implied) that the use of this Product in respect of any patent, trademark or other intellectual property right with respect to the Product (whether alone or in combination with other products) will not infringe rights of third parties.

Essange Reagents excludes any liability for any damages in respect thereof. Purchaser of the Product hereby indemnifies Essange Reagents for any damages and/or claims of third parties in respect of intellectual property rights in respect of the use of the Product.

Prices, Taxes and payments:

Prices do not include freight, packing, duties or VAT or other taxes, unless agreed otherwise in writing. Essange Reagents is entitled to adjust prices.

Payments shall be made within 30 days on the bank account indicated on the invoice. Essange Reagents may request for advance payments.

Essange Reagents may charge any interest on overdue payments.

Disclaimer and exclusion of liabilities:

Essange Reagents did not establish any intended use or fitness for purpose (whether express or implied, whether for research or not) in respect of the Product. Essange Reagents explicitly does not give any warranties or guaranties (explicitly or implied) with respect to the Product. Essange Reagents excludes any liability (whether direct, indirect and/or consequential) for any damage on whatever ground (e.g. contractual, tort or product liability) towards the purchaser of the Product, its officers, employees, agents and any person handling the Product. Essange Reagents excludes any liability in respect of advices.

Governing law and jurisdiction:

Dutch law shall apply to any transaction or advice with respect to the Product and any offers, orders, requests for information or notifications. Any dispute between Essange Reagents and purchaser or any other party in relation to the Product, a transaction or communication with Essange Reagents shall be settled by the competent court in Amsterdam.

Important notifications:

Please inform us in case of any discoveries, know-how and recommendations in relation to the Product and research. For information for other licenses and exploitation possibilities please use info@essange-reagents.nl.
