

Title **Certificate of Analysis M9160BBC PeliCluster Anti-Lactoferrin**

Product name: PeliCluster Anti-Lactoferrin
 Article number: M9160BBC
 Clone: CLB-13.17
 Isotype: IgG1
 Species: Mouse
 Amount: 5 mg
 Purification method: Protein A
 Buffer & preservative: 20 mM borate buffer + 150 mM NaCl, pH 8.8 (±0.1), no preservatives
 Storage requirements: See product label
 Protein concentration: See product label (A280nm; extinction coefficient 1.4)

Essange Reagents ID66 CX Amsterdam NL
PeliCluster Anti-Lactoferrin VL
 CLB-13.17 5 mg
 For Research Use Only, Not for use 6.73 mg/ml
 in diagnostic procedures

EUH210 Safety data sheet available on request

Test	Requirement	Meets requirement
Immunoelectrophoresis	Tested against Rabbit anti-Mouse total serum and Rabbit anti-Mouse-IgG. Monoclonal IgG precipitation line without additional lines of equivalent intensity is demonstrated.	Yes
	Tested against Rabbit anti-FCS. No precipitation lines are demonstrated	Yes
Isoelectric focusing	Antibody migrates to the same position as the reference batch.	Yes
Specificity in flowcytometry	80 - 100% positive granulocytes (cytoplasmic staining)	Yes

Date approved: 23 APRIL 2026
